Dr. Ravi Hole	Faculty member	8788952441

The **IPR (Intellectual Property Rights) Cell Committee** is typically established within Academic Institutions, Research Organizations, or Corporate R&D divisions to oversee and promote the protection and Management of intellectual property.

Functions of an IPR Cell Committee

- Awareness and Education**
 - Conducts seminars, workshops, and training programs on IPR.
 - Educates faculty, researchers, and students about the importance of IP (Patents, copyrights, trademarks, etc.).
 - Disseminates knowledge about IP laws, filing procedures, and best practices.
- IP Identification & Evaluation**
 - Assists in identifying potentially patentable inventions and other forms of IP.
 - Evaluates research outputs to determine their commercial potential and IP value.
- Filing & Protection Support**
 - Helps inventors in drafting, filing, and prosecuting patents and other IP forms.
 - Coordinates with legal/IP consultants and patent offices for documentation and filings.
 - Maintains records of filed and granted IPs.
- IP Policy Implementation**
 - Develops and enforces institutional IP policies.
 - Clarifies ownership, revenue sharing, and commercialization rights.

5. Commercialization and Licensing

- Facilitates transfer of technology through licensing or startups.
- Engages with industries for potential collaborations or monetization of IP asset.

6. Conflict Resolution

- Resolves disputes related to authorship, inventor ship, or ownership of IP.
- Ensures ethical practices in IP development and usage.

7. Liaison Role

- Acts as a bridge between inventors and external IP consultants, patent attorneys, and government bodies.
- Coordinates with national and international IP organizations and databases.

8. Documentation & Reporting

- Maintains a database of all institutional IP assets.
- Submits periodic reports to institutional heads or funding agencies.
